DVD of high resolution files £350

Prints

Reprints are printed on high quality photo paper by a professional print lab. 8x6" and 10x8" prints are presented in a card mount.

Stretched Canvas

Stretched canvas wraps are a great way of displaying your favourite images. Printed by the same professional lab who produce reprints, the same level of quality and consistency can be expected.

Acrylics

Acrylics are stylish, beautiful ways of showing off the best images from your big day. The image is printed directly onto the back of a 5mm thick piece of acrylic, with lighter areas becoming transparent. This gives the image a 3D feel when mounted on your wall with its 25mm mounting lugs.
